IN THAT MOMENT YOU WILL KNOW WHY
about upsouth

UpSouth Adventures is based in Cape Town, South Africa and operate unique and exclusive tours within Southern Africa and beyond. We have over 9 years experience in the travel and motorcycle tour industry.

UpSouth Adventures has thoroughly scouted all corners of Southern Africa, to bring you the best routes, accommodation and attractions this wildly beautiful destination has to offer. We are so very passionate in sharing our love for Africa with you.

With extensive local knowledge and international flavour, our multi-skilled team is completely committed to deliver an amazing, personalised experience. Dedicated, fun and professional, our full focus and attention is always on you. UpSouth Adventures - You only live once, live up to it!

HOW WE ROLL
You want to experience South Africa on two wheels, but planning a trip, knowing where to go, booking accommodation and making sure you do not miss out on anything is a lot of work. And who wants to do a lot of work when all you want to do is hit the road?!
Making things easy...
UpSouth Adventures will plan your whole route with great roads, beautiful scenery and handpicked accommodation. Your tour guide and back-up vehicle will also provide that reassurance and comfort so you can just enjoy the freedom of the road.

For those who want to have more freedom..
Maybe you prefer to travel with more flexibility, not always with the group. Well then, kind sir... madam, we equip you with an optional GPS and routed maps. You then have the freedom to follow the tour guide on certain days or travel at your own pace on others; meet up with the group for lunch or go on your own adventure! Just follow the planned route and the back-up vehicle will still be there, just in case.

This option is not recommended for those with little experience or on some routes that include long gravel sections. Africa is not for sissies!

A little advice..
In the unlikely event of an incident or an adventurous rider exploring a bit too much for one day, the back-up vehicle may be delayed. It is recommended to take additional motorcycle luggage (optional), available from us, just to pack your daily things. This way you will have no delays in taking a shower, getting into your safari gear, relaxing with a beer and reminisce about the thrilling day you just had.

Looking to travel independently..
We have self guided tours for guys and girls who want to do their own trip, completely independent from a tour guide and back-up vehicle. We still take care of all the technical things, planning routes, plotted with pre-booked accommodation, motorcycles and GPS navigation, all to suit your needs and requirements.
If you only require routes and accommodation or just a motorcycle rental, shout and we will assist! Anything else? Coffee? How many sugars?

Why Us?
People make all the difference... We at UpSouth really love what we do, and we love to share every amazing part of Southern Africa with you. Whether we share stories by the fire, or introduce you to some local tasty snacks, you will get to know us and this beautiful place.
There is a reason so many people dream of going to Africa, of exploring the vast open spaces, of seeing the incredible wildlife, of meeting the many different smiling faces of this continent’s inhabitants. It simply is like no other place in the world.

South Africa has been described as ‘A world in one Country’, with so many different landscapes concentrated into the Southern tip of Africa; and it is this diversity that makes for an unsurpassed motorcycling experience. Epic is probably still too small a word.

We do however have some bad news... one visit, will not be enough!

the roads
Southern Africa boasts top quality paved and gravel roads, and now we are only talking about the roads’ surface! What makes the roads special, are the incredible landscapes they wind through. From an easy riding day, to intricate mountain passes, there will be something for everyone’s riding level and appetite.
**the people**
South Africans won the hearts of the world when visitors came from all over for the 2010 World Cup. A rainbow nation awaits. The people are so proud of their beautiful country, that they truly want to share it with all, and that is what makes tourist feel so welcome. The many faces of South Africa you pass long your route, are as diverse as its landscapes and will linger in your heart and memories for a long time after you leave.

**the freedom**
It is what we all search for, that incredible feeling when your mind is open, free of worries, when you feel like the sky is bigger and bluer than ever, when the real world is far far away, when the wild beauty of nature surrounds you entirely. You will find that feeling... Its that feeling of Freedom that brings motorcyclists back to Southern Africa year after year. It is hard to explain, you will just have to come experience it for yourself.

**the wildlife**
There is nothing like being meters away from a giant Elephant Bull, like seeing a wild lion laze in the afternoon sun. Our world is changing so rapidly, to see animals in their natural environment is a real privilege and something you will never forget. There are very few places left in the world to truly experience the ‘wild’ in wildlife and none equal to Southern Africa’s abundance, diversity and of course, the amazing Big 5.

UpSouth Adventures’ Best of the West tour is the most adventurous tour in terms of gravel road riding and interesting accommodation spots. It includes the most beautiful, less explored backroads and mountain passes of the Karoo and at some stages a bit more challenging than the standard jeep track. The route is designed to explore most of the exciting and breathtaking gravel road passes the Cape has on offer.

We start the trip off by riding through the famous Cape Winelands of the Western Cape and then make our way north, along the backroads of the Cederberg Mountain, then east into the semi-desert areas of the Tankwa Karoo, where the real beauty of this trip lies... the single lane gravel roads, carving through the valleys, mountain passes and open plains.

We travel over the Swartberg and through the Baviaanskloof. We spend some time in the Garden Route and then head back towards Cape Town via the most Southern Tip of Africa, from where we explore the last hidden valleys, before making our way into town, along the famous Gordon’s Bay coastal road.

This is a great way to spend a morning or afternoon. One of the country’s most visited tourist attractions was once the “home” of South Africa’s most famous political prisoner, Nelson Mandela. The tour will include a boat ride across Table Bay, a guided tour of the Prison, Mandela’s cell and a bus ride around the island. Do not leave Cape Town without a visit to this historical place.

WINELANDS TOUR
Having grown up in Cape Town, we have a serious passion for South African wine. Enjoy a unique full day gourmet wine and dine experience in the famous Stellenbosch and Franschhoek region.

TABLE MOUNTAIN
No visit to South Africa is complete without heading up table mountain. The cable car runs daily, weather permitting. Breathtaking views of the city and the Cape Point peninsula, especially as the African sun goes down.

TOWNSHIP TOURS
South Africa is a country of contracts, so are the people. Visit one of Cape Town’s oldest Townships for an eye opening tour. Meet the locals, see what life can be like and learn some new words in the local Xhosa language.

CAPE TOWN CITY TOURS
Hop On Hop Off Sightseeing busses - one of the easiest ways to see this beautiful city and it’s even more breathtaking surroundings. Different routes available, we will help you select the best one!

GREAT WHITE SHARK CAGE DIVE / VIEWING
See these amazing and elusive creatures up close. The Two Oceans surrounding the Cape is famous for inhabiting half the world’s Great White Shark population. A great company, focussing on eco awareness and conservation.
South Africa is an extremely popular tourist destination. Before the FIFA World Cup in 2010, all International airports were upgraded, and travelling to South Africa is quite easy. We recommend Cape Town International Airport, as it is the starting point for most of our tours, but it is just as easy to get a connecting flight to Cape Town from Johannesburg (OR Tambo International Airport).
**DOCUMENTATION:**
PASSPORT (Valid for 6 months with at least 2 consecutive blank pages. Please check Visa requirements for your country of origin, prior to travel, with your local agent.)

**DRIVER’S LICENSE** (Must be in English with a photo. Alternatively, an accompanying official translation or International License.)

**MEDICAL AND TRAVEL INSURANCE DETAILS**
CREDIT CARD, TRAVELLERS’ CHECKS and some CASH (South African Rand)

**OTHER REQUIREMENTS**
Although there is no risk of yellow fever in South Africa, South Africa requires a valid yellow fever certificate if your journey starts or entails passing through the Yellow Fever Belt of Africa or South America.

**ROAD TRAVEL WITHIN SOUTH AFRICA**
South Africa has an extensive road infrastructure including national highways and secondary roads. Most roads are in good condition, with some great gravel roads for the all road experiences – yeahhh!

**Distances** between towns can be quite long, especially along major roads crossing the interior of the country. All speed limits in South Africa are in kilometres per hour. Generally, the speed limit for urban areas is 60km/h (37 miles/h), on secondary roads it’s 100km/h (62 miles/h) and on national highways its 120km/h (75 miles/h). Keep an eye out for the designated speed limit as these may vary depending on road conditions and law enforcement does take place next to the road.

In South Africa, we drive on the left side of the road, the other side is “sui-side” ;)

**Driver’s license:** You may use a valid driver’s license issued in your own country as long as it has a photograph, the signature of the holder and is in English. Alternatively, you may carry an official translation of your license or obtain an international driving license before you leave home. You should always have your driver’s license with you when you are driving as you will be asked to produce it if you are pulled over for any reason.

**Fuel:** When you refuel, be sure to establish what kind of fuel you need. Most fuel stations accept cards. At the fuel station, a petrol attendant will fill your bike, check tyres, oil and water if you ask. It’s customary to give a small tip of around R5 to the fuel attendant.
